Rental Systems

TEMPORARY CHILLERS

Carrier Rental Systems can provide temporary chillers when you need them, with immediate 24hr availability from 5kW to 5,000kW which enables you to use Carrier Rental Systems as a way to obtain additional cooling for your business on a rental basis with no capital cost.

All equipment is easy to install with flexible hoses and quick connect couplings. Things are made even simpler by the fact that Carrier Rental Systems can look after all elements of the installation for you.

CONTINGENCY PLANNING

Use the free contingency planning service to ensure that your cooling demands can be immediately covered by Carrier Rental Systems equipment in the event of failure.

PEACE OF MIND

Carrier Rental Systems is a key division of the Carrier Corporation which means that all the benefits of the worlds leading refrigeration company are available on a short or long term rental basis.

Quality of equipment and personnel, constantly enforcing health and safety systems and having a real interest in the care of the environment are all a high priority within Carrier Rental Systems.

These measurable criteria along with constantly delivering a high level of service ensures the company continues to provide high quality rental cooling and heating packages to a wide range of critical applications worldwide.

TEMPORARY AIR-CONDITIONING / HEATING

Carrier Rental Systems can provide temporary air-conditioning units from 2kW to 5,000kW and these can either be used as a stand alone system or to supplement existing installed capacity.

With a complete package of chillers, boilers and air handling units available, Carrier Rental Systems is able to provide you with a permanent specification air-conditioning or heating system on a temporary basis. The portable units and fan coils available, allow you to offer cost effective temporary installations from 2kW to 5,000kW.

Hot water boilers are available from 50kW to 2,000kW for rental during maintenance or lead time periods. These are easy and quick to install. All rental equipment can be supported by a range of ancillary items which when combined, provides a range of flexible and bespoke heating and cooling packages for your clients.

NATIONWIDE COVERAGE

Carrier Rental Systems operates throughout the UK with additional offices worldwide. Clients who require a continuity of supply for climate control in various worldwide locations can easily be served by Carrier Rental Systems.

Experience:

Carrier Rental Systems vast experience covers a wide range of installations. This enables Carrier to provide a complete turnkey service from cost effective design and specification through to installation and operation.

The Carrier Rental Systems application team has specialist skills and knowledge to assist clients in both planning and system design.

Flexibility:

Carrier Rental Systems offers short or long term rental contracts to suit the demands of your business and minimise capital expenditure. In addition, the opportunity exists to increase the flexibility and operating efficiency by renting your air-conditioning or production cooling system.

Reliability:

All systems are designed with high levels of reliability, efficiency and performance as a must. This provides you with minimum running costs and maximum operational benefits.
